

# MSSSC SHARED SPACE

# A NEW WAY OF WORKING AT MSSSC

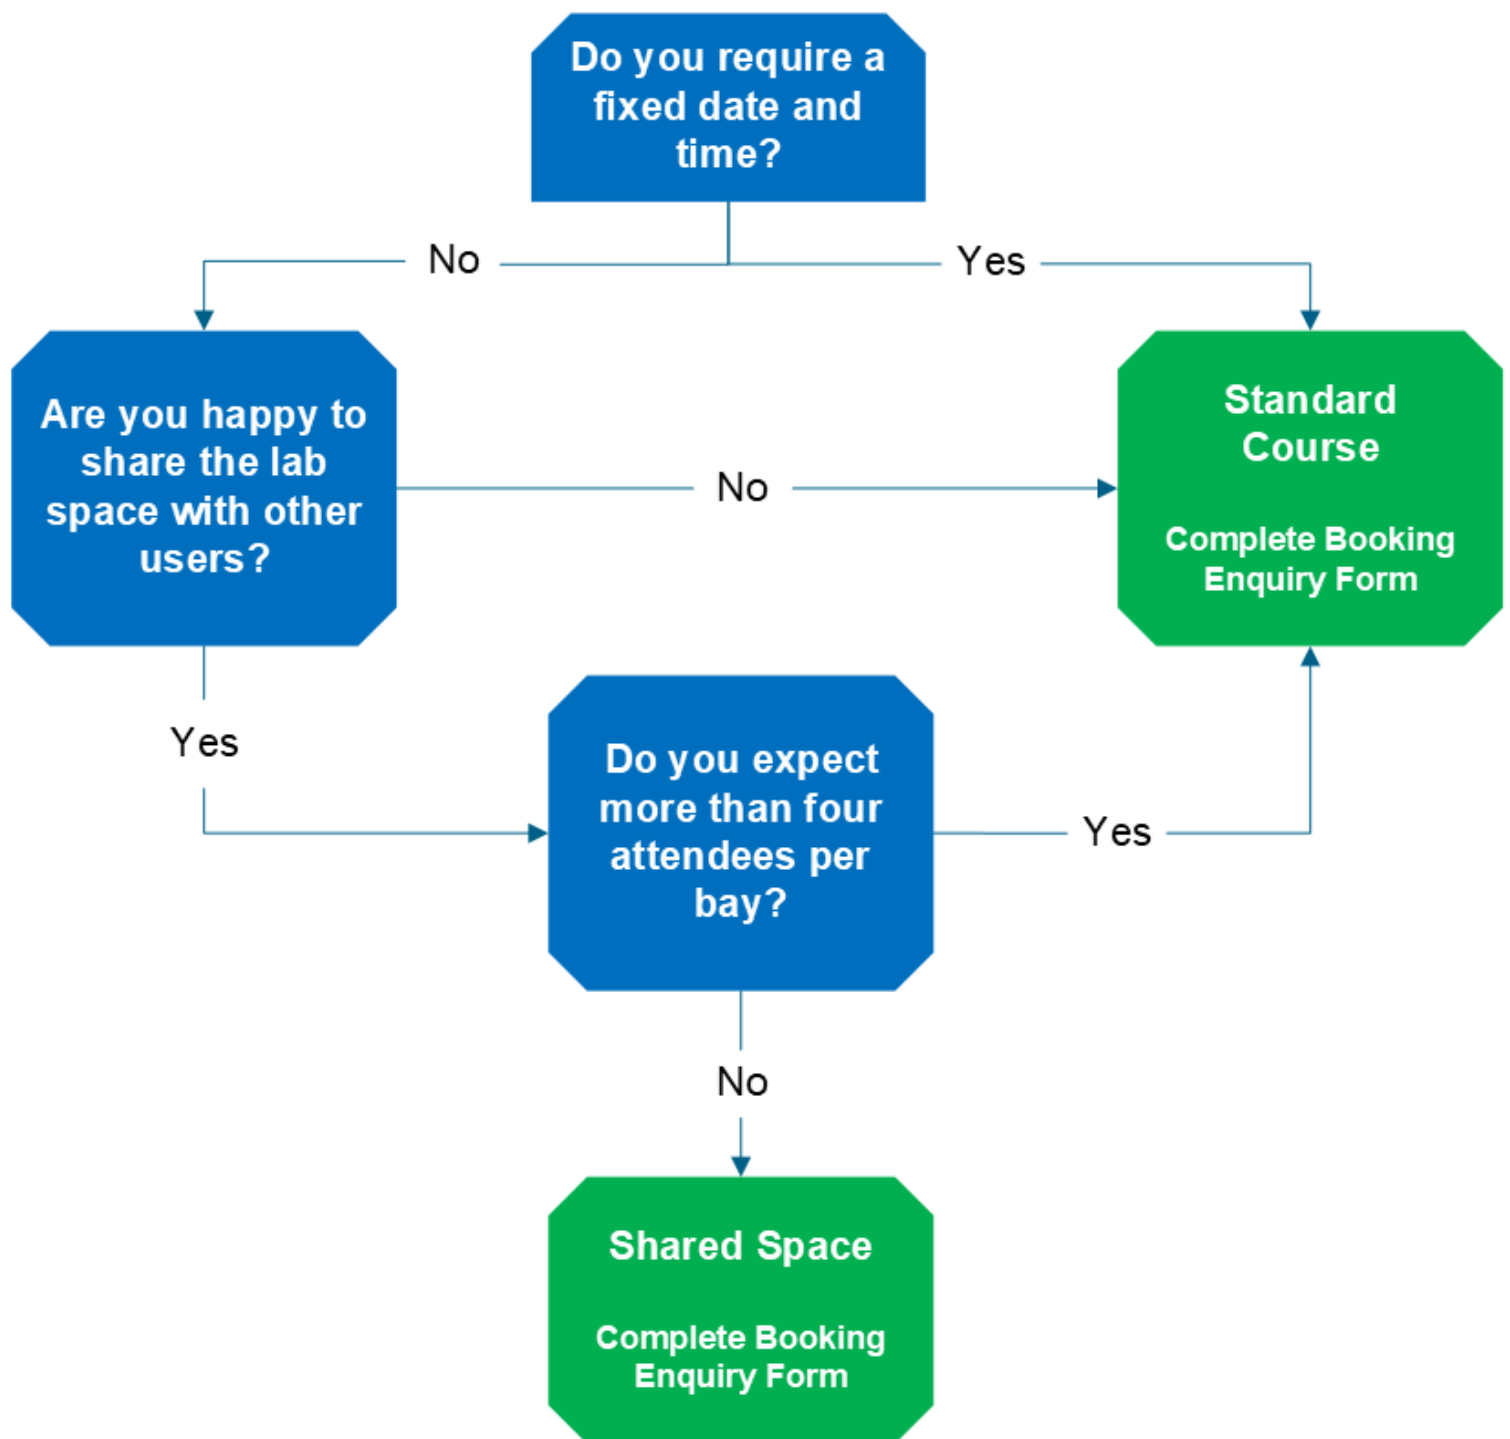

At the Manchester Surgical Skills and Simulation Centre (MSSSC), we recognise that flexibility is key - especially for clients running smaller courses who may not require full laboratory space.

To better meet your needs, we're expanding our offer. You can now book just the Seminar Room or select a small number of bays, giving you more choice, greater value, and tailored support for your training delivery.

# YOUR GUIDE TO CHOOSING THE RIGHT SETUP

# WHAT'S INCLUDED IN YOUR BOOKING

You can choose to book the Seminar Room, one or more individual bays, or a combination of both.

For cost-effectiveness, we recommend booking no more than four individual bays, with or without the Seminar Room, depending on your training needs.

## SEMINAR ROOM

*Our Seminar Room is a modern space, ideal for lectures, group discussions, or pre-course briefings.*

- Available from 9am to 4pm
- AV system included
- Capacity: Up to 30 delegates
- Cost: £500
- Dates allocated by MSSSC\*

## SINGLE BAY

*Individual surgical bays in our lab are perfect for hands-on practice or small-scale training sessions.*

- Available from 9am to 4pm
- Up to 4 attendees per bay
- Basic instruments provided (sutures are not included)
- Lap kit available on request (additional cost applies)
- Cost: £500 per bay
- Dates allocated by MSSSC\*

### **\*Dates allocated by MSSSC**

We reserve specific weeks throughout the year dedicated to Shared Space bookings. Availability is limited and offered on a first-come, first-served basis.

# SPECIMEN OPTIONS FOR SINGLE BAY BOOKINGS

## 1. Included Specimens (No Additional Cost)

A list of pre-used specimens will be made available by the MSSSC team. These are included as part of your Single Bay booking and are suitable for general practice and skill development.

## 2. Specific Specimens (Additional Cost)

If you require particular specimens, these can be ordered in advance. Please note that additional charges will apply, and we recommend early requests to ensure availability.
